SUMMARY

Final-year B.Tech student at IIIT Delhi (Computer Science & Biosciences) with hands-on experience in Python, SQL, Excel, Power BI, and AI-assisted development. Experienced in building data dashboards, SQL analyses, automation workflows, and practical web projects for real clients. Interested in data analytics, Python development, AI agents, automation, and business problem-solving.

WORK EXPERIENCE

Freelance Web Developer & AI Content Creator

Jun 2026 - Present

- Built 4 real-world website projects using HTML, CSS, JavaScript, and AI-assisted development tools.
- Created digital content assets for businesses by combining technology, design, and modern marketing strategies.
- Translated business goals into practical deliverables and iterated based on client feedback to improve usability and overall presentation.

Software Development Intern | YoZu

May 2023 - Aug 2023, Remote, India

- Developed logic for a calculator and math equation solver for a conversational learning application geared towards children.
- Integrated AI and API support to enhance application responsiveness, usability, and data reliability.
- Optimized code structure and improved overall application performance through rigorous testing and debugging workflows.

PROJECTS

Algorithmic Trading Strategy Automation | Python, Pine Script, Data Analysis

- Developed Pine Script trading rules and backtested historical data to establish data-driven signal analysis.
- Automated trading workflows to reduce manual intervention and validate strategy behavior across multiple asset classes.

Blinkit Grocery Sales Analytics | Power BI

- Built comprehensive KPI dashboards to accurately track revenue, product inventory, outlet performance, and customer segments.
- Utilized DAX measures, slicers, and interactive visualizations to highlight growth opportunities and specific unit patterns.

Netflix Dataset Analysis | SQL / MySQL

- Wrote complex SQL queries to analyze title counts, release year distributions, and general viewing trends.
- Extracted actionable insights regarding content popularity and regional availability utilizing database joins and filters.

Retail Sales Dashboard | Excel

- Created a dynamic and highly interactive dashboard utilizing Pivot Tables and lookup formulas to identify top-selling products.
- Analyzed monthly sales variations to formulate targeted recommendations supporting strategic decision-making.

EDUCATION

B.Tech in Computer Science | Indraprastha Institute of Information Technology Delhi (IIIT-Delhi) **2022 - 2026**

Higher Secondary Education (CBSE Class 12) | Rajkiya Pratibha Vikas Vidyalaya **2020 - 2021**

- Academic Score: 85%

Secondary Education (CBSE Class 10) | Govt. Boys Sr. Sec. School, Brahmpuri **2018 - 2019**

- Academic Score: 89%

ADDITIONAL INFORMATION

- Technical Skills:** Python, SQL, Excel, Power BI, NumPy, Matplotlib, Data Cleaning, EDA
- Programming & Web:** Object-Oriented Programming (OOP), HTML, CSS, JavaScript, APIs
- Tools & Workflows:** GitHub, Figma, Canva
- Soft Skills:** Problem Solving, Communication, Requirements Analysis
