

SOURABH

DATA ANALYST | Delhi, India

Phone: +91-7982674836 | Email: sourabh55jan@gmail.com | LinkedIn: [sourabhanalytics](#) | GitHub: [get-sourabh](#)

SUMMARY

Final-year B.Tech student at IIIT Delhi (Computer Science & Biosciences) with hands-on experience in Python, SQL, Excel, Power BI, and AI-assisted development. Experienced in building data dashboards, performing SQL analysis, automating workflows, and delivering practical web projects for clients. Focused on data analytics, Python development, AI agents, automation, and business problem-solving.

WORK EXPERIENCE

Freelance Web Developer & AI Content Creator

Jun 2026 - Present

- Built and delivered 4 responsive web projects using HTML, CSS, JavaScript, APIs, and AI-assisted development tools.
- Created 2 user-facing solutions: an audio transcription platform and a mobile-friendly renovation website for a Canadian client.
- Engineered a Trade Position Size & Risk Calculator that converts 4 user inputs into 2 outputs: asset quantity and total capital required.
- Implemented 4 core features in a JavaScript-based Stick Hero game: interactive gameplay, collision detection, scoring, and responsive controls.

Software Development Intern | YoZu

May 2023 - Aug 2023, Remote, India

- Engineered a Django-based calculator and equation solver supporting 4 core query types and 9 mathematical functions for a conversational learning application.
- Integrated OpenAI's GPT-3.5 Turbo API as a fallback response layer for questions beyond the solver's 4 core query types.
- Built a JSON API endpoint returning 7 response components, including solutions, category detection, real-life examples, and difficulty-based practice questions using Django, SymPy, NumPy, and Matplotlib.
- Structured a learning bank with 421 unique practice questions and 84 real-life examples across 6 mathematical categories and 3 difficulty levels.

PROJECTS

Algorithmic Trading Strategy Automation | Python, Pine Script, Data Analysis

- Created Pine Script trading rules and backtested historical data to evaluate data-driven signals.
- Automated trading workflows to reduce manual intervention and validate strategy behavior across multiple asset classes.

Blinkit Grocery Sales Analytics | Power BI

- Built KPI dashboards to track revenue, inventory, outlet performance, and customer segments.
- Applied DAX measures, slicers, and interactive visualizations to identify growth opportunities and sales patterns.

Netflix Dataset Analysis | SQL / MySQL

- Authored SQL queries to analyze title counts, release-year distributions, and viewing trends.
- Generated insights into content popularity and regional availability using database joins and filters.

Retail Sales Dashboard | Excel

- Designed an interactive dashboard using PivotTables and lookup formulas to identify top-selling products.
- Analyzed monthly sales trends and formulated recommendations to support strategic decision-making.

EDUCATION

B.Tech in Computer Science | Indraprastha Institute of Information Technology Delhi (IIIT-Delhi)

2022 - 2026

Higher Secondary Education (CBSE Class 12) | Rajkiya Pratibha Vikas Vidyalaya

2020 - 2021

- Academic Score: 85%

Secondary Education (CBSE Class 10) | Govt. Boys Sr. Sec. School, Brahmpuri

2018 - 2019

- Academic Score: 89%

ADDITIONAL INFORMATION

- Technical Skills: Python, SQL, Excel, Power BI, NumPy, Matplotlib, Data Cleaning, EDA
- Programming & Web: Object-Oriented Programming (OOP), HTML, CSS, JavaScript, APIs
- Tools & Workflows: GitHub, Figma, Canva
- Soft Skills: Problem-Solving, Communication, Requirements Analysis
