SUMMARY

Final-year B.Tech student at IIIT Delhi (Computer Science & Biosciences) with hands-on experience in Python, SQL, Excel, Power BI, and AI-assisted development. Experienced in building data dashboards, SQL analyses, automation workflows, and practical web projects for real clients. Interested in data analytics, Python development, AI agents, automation, and business problem solving.

TECHNICAL SKILLS

Data Analytics: Power BI, Excel, Pandas, NumPy, Matplotlib, Data Cleaning, EDA, Data Visualization, Dashboarding

SQL & Databases: SQL, MySQL, Joins, Aggregations, Filters, Data Cleaning Queries

Programming & Web: Python, OOP, HTML, CSS, JavaScript, APIs

Tools & Workflows: GitHub, Figma, Canva, Generative AI Tools, AI-assisted Development

Business Skills: Problem Solving, Requirement Understanding, Client Communication, Business Analysis

EXPERIENCE

Freelance Web Developer & AI Content Creator | Self-Employed | Jun 2026 - Present | Remote

- Build real client website projects using HTML, CSS, JavaScript, and AI-assisted development workflows.
- Create AI-generated content assets for businesses by combining technology, design, marketing, and business requirements.
- Translate client goals into practical deliverables and iterate based on feedback to improve usability and presentation.

Software Development Intern | YoZu | May 2023 - Aug 2023 | Remote, India

- Built Python logic for a calculator and math equation solver for a conversational learning application for children.
- Integrated AI/API-based features to support interactive learning and improve response reliability.
- Improved problem-solving logic, code structure, and performance through testing and debugging.

PROJECTS

Algorithmic Trading Strategy Automation - Python, Pine Script, Data Analysis

- Converted Pine Script trading strategy logic into Python for rule-based automation and historical testing.
- Implemented data-driven conditions to analyze signals, reduce manual chart interpretation, and validate strategy behavior.

Blinkit Grocery Sales Analytics - Power BI

- Built interactive KPI dashboards to analyze sales revenue, product performance, outlet performance, and customer segments.
- Used measures, slicers, and visualizations to highlight growth opportunities and demand patterns.

Netflix Dataset Analysis - SQL / MySQL

- Wrote SQL queries to analyze titles, genres, countries, release years, and content distribution trends.
- Extracted insights on genre popularity, regional availability, and release patterns using filters, aggregations, and joins.

Retail Sales Dashboard - Excel

- Created a dynamic dashboard using Pivot Tables, lookup formulas, slicers, and charts to track revenue, orders, and customer trends.
- Identified top-selling products and monthly sales variation to support business reporting and decision-making.

EDUCATION

Indraprastha Institute of Information Technology Delhi (IIIT-Delhi) | B.Tech, Computer Science & Biosciences | 2022 - 2026

Rajkiya Pratibha Vikas Vidyalaya | CBSE Class 12 (Science) | 2020 - 2021 | 85%

Govt. Boys Sr. Sec. School, Brahmpuri | CBSE Class 10 | 2018 - 2019 | 89%
